Here is our Scribe project. Having communication issues trying to get raw data. For testing, I just put in one record for each of the excel files. You should be able to export it easily from here to re-import.

Could you send me your files that were uploaded into SCRIBE. Main reason I need something to use as a training tool when and if I get asked. Thanks....I can always mask the data if needed or if necessary make up my own data....

Thanks
